NO TIME IS SET TO RECEIVE BIDS

Commissioners Adjourn For Month, But Plans For Heating Plant Will Soon be on File

County Officials Believe Improvement Will be a Good Investment in Long Run

No date has been set for the receiving of bids for the new heating plant to be placed in the basement of the court house. The commissioneas have adjourned for this month but the plans and specifications are expected to be placed on file within a short time. Then a date for the bids will be set and it is hoped to rush the work to completion. - McGuire and Shook, architects of Indianapolis, will draw the plans.

The estimate cost of the new plant is \$18,000. This sum was appropriated from the county fund and will not necessitate the selling of any bonds. In deciding to make the appropriation and to place the plant under the building the commissioners and county council looked at the problem from all angles.

The present heating plant would not possibly last longer than two years and there were some experts who declared it would not work through the coming winter. To put order would require an expenditure of \$1,000 to \$1,200 and would give only temporary relief. Under the room towards the east end of the building. It has been estimated that only 18 inches of excavating will be necessary and then the boilers will be higher than at the present heating station.

A large room will be constructed for coal and if temporary plans are followed the flue will run up near the southeast corner of the building and will not damage any of the rooms in the building. Outside

EIGHT RUSHVILLE MEN WANT IN CAMP

Applications For Admission to School For Officers to be Held at Fort Harrison

2 FORMER LOCAL MEN APPLY

Eight Rushville men and two who formerly lived here have applied for admission to the second officers training camp which will open at Fort Benjamin Harrison next month. The men who have been examined received printed instructions explaining that they would be notified by mail August 10 whether they had been accepted for training. Some of them were examined at Fort Harrison yesterday and others have been ordered to report to Seymour and Cambridge City.

Seven of the Rushville men who applied are: Charles Sherman, Will Nicholas, Donald Alexander, Will-Brann, Vincent Whitsitt, Earl B. Marlatt and Ernest Marlatt. The two former Rushville men are Charles Stiffler of Anderson and Lawrence Root of Piqua, Ohio, Applicants from here who were at Fort Harrison yesterday said that Mr. Root got his application ten minutes after the time limit for receiving applications, but he was told to let it go through and see what action was taken.

Officials Refute Story That The Assembly Program Will be Abandoned This Year

RUMOR WIDELY CIRCULATED

Same Old Tale About Price of Season Tickets Being Increased Is Also Denied

Officials of the Rush County Chautaugua association today took occasion to deny rumors they have heard that the chautauqua had cancelled its contracts and would not give a program this year. Such a story has been traveling over the county at a merry clip, one official hearing yesterday from a farmer living in southern Rush county.

"The chautauqua has not cancelled its contracts and never had any idea of doing such a thing," this same official said. "Such a thing has never even been hinted until recent- Austria-Hungary Will Have to be ly when someone asked if it were not the case that the chautauqua would be abandoned this year. The subject was never discussed by the directors and never brought up at any meetings. It has been the intention of the officers to give the chautauqua as usual all the time."

Receipts From Theatrical Performances at Catholic Carnival for Patriotic Purposes

Another Will be to Buy Yarn For Knitting Socks and Third K. of C. War Camp Fund

Preparations for the fourteenth annual carnival to be given by the men of St. Mary's Catholic church. July 25, 26, 27 and 28 are rapidly nearing completion, according to the executive committee In keepling with the spirit of the times donate the entire proceeds of the theatrical performances given nightly in the church hall to patriotic purposes.

On the opening night, Wednesday, the local Red Cross will be the beneficiary. The amount realized will be used for the purpose of purchasing yarn for the knitting of socks for soldiers. The Red Cross treasury cannot be drawn upon for such purposes and the benefit should be a means of aiding this important

On Thursday night, the second night of the carnival, the mess fund of Company B. will receive its first donation. While the government furnishes rations to its soldiers. only the bare essentials are given and the mess fund is intended to supply some of the comforts of home to the local company.

On Friday night the beneficiary will be the Knights of Columbus. who will give the proceeds to the war camp fund. This organization is raising a million dollar fund to equip recreation centers for the training camps somewhat after the manner of the Y. M C. A. The war department has given its full approval to this worthy project.

IN CAMP NEAR LAUREL

Troops From Christian and Methodist Churches Will Have Regular Program For Each Day.

PART OF THEM HIKE TO CAMP

About ten Boy Scouts from the troops at the Main Street Christian and St. Paul's M. E. church started this afternoon to hike to Laurel. where a camp will be established by the Scouts will join the crowd hiking equipment. The boys who left on foot expected to camp over night near Andersonville.

It is expected that a site a quarter of a mile northeast of Laurel will be selected for the camp. A committee from the two troops has already looked over the ground and picked two desirable places. The one which will be used will be selected by the committee early in the morning.

A set of camp rules has been adopted. The Scouts will arise each morning at six o'clock and at 6:30 there will be "setting up" exercises just as an army camp. At seven breakfast will be served and at eight they will swim. A regular Scout program will be followed the remainder of the day. The equipment includes a first aid tent, a reading tent, a mess tent, cooking tents and sleeping tents. About thirty Scouts

TAYLOR'S HAND LACERATED

Caught Between Pulley and Rope While Putting Up Hay.

Chase Taylor of Jersey City sustained a badly lacerated right hand yesterday at the Derby Green farm, where he was helping put hay in the mow. Taylor was operating a hay hork and the horse used to life the hay into the mow was started too soon, resulting in his hand being caught between the rope and the pulley. Taylor was pulled a distance of 18 feet into the air and when let down his hand and fingers were badly burned and cut by the rope.

NO TIME SET TO RECEIVE BIDS ON HEATING PLANT Continued from Page 1.

entrance to the heating plant will probably be made from the south. In addition to the new plant about 2,000 square feet of additional radiation will be installed, assuring that the entire building will be heated, something that is not done under the present system.

The new heating plant will be known as a low pressure plant while the resent one is of the high pressure type. One expert told the council that the present plant is not piped correctly. The reducing valves are it the heating plant and his theory was that these valves should be at he court house. His idea was that by reducing the steam at the plant it was lost by the time it got to the building, whereas if pressure were reduced after reaching the building there was bound to be live steam all the time.

It developed during the investigation that the original plans for the court house called for the placing of the plant under the building but hese were changed because enginters did not think it was practical t that time.

The new system it is believed, will result in a saving of fuel and labor. In case the new plant is not completed by cold weather the old plant can be used and the cut-over made any time. While the sum of \$18,000 appears to be a large expenditure the commissioners and council, believe it will be a good investment in the long run.

Attention Farmers

Grading wheat under U. S. Standards, a law which all grain dealers will have to abide by.

The official grain standards of the United States for wheat were fixed, established, promulgated and published on March 31 by the Secretary of Agriculture, under the authority given in the Grain Standard Act. This act of Congress establishes wheat grades for the entire United States, from the farm to the export terminal. Effective on Indiana wheat July 1, 1917.

Number Two Red Winter wheat shall be cool and sweet, contain not more than thirteen per cent of moisture shall test

Number Two Red Winter wheat shall be cool and sweet, contain not more than thirteen per cent of moisture, shall test not less than fifty-nine pounds per bushel, contain not more than four per cent of damaged kernels, and not more than one per cent of foreign matter.

Number Three Red Winter wheat shall be cool and sweet, contain not more than fourteen per cent moisture, shall have a test weight of at least fifty-seven pounds, shall contain not more than seven per cent of damaged kernels, and not more than two per cent of foreign matter.

Number Four Red Winter wheat shall be cool and sweet, contain not more than fourteen per cent moisture, shall have a test weight of at least fifty-five pounds. Shall contain not more than ten per cent damaged kernels, not more than one per cent heat damage, and not more than four per cent foreign matter.

Number Five Red Winter wheat may be musty or sour, contain not more than fifteen per cent of moisture, test not less than 53 pounds per bushel. May contain not more than fifteen per cent damaged kernels, not more than three per cent heat damage and not more than six per cent foreign material.

Dockage includes sand, dirt, weed seeds, weed stems, chaff, straw, grain other than wheat, and any other foreign material which can be removed readily from the wheat by the use of appropriate sieves cleaning devices, or other practical means suited to separate the foreign material present; also undeveloped, shriveled and small pieces of wheat kernels necessarily removed in properly separating the foreign material. The quantity of dockage shall be calculated in terms of percentage based on the total weight of the grain including the dockage. The percentage of dockage so calculated shall be stated in terms of whole per centum and half per centum. A fraction of a per centum when equal to, or greater than a half, shall be treated as a half, and when less than a half shall be disregarded. The percentage of dockage so determined and stated shall be added to the grade designation.

For a full copy of the Official Standards write to the Secretary of Agriculture, Washington, D. C., or to your Congressman. It will be seen that the requirements of grading are a trifle more strict. Dirty wheat, or wheat that is even slightly damp, cannot grade either number two or three in any market. It rests primarily with the farmer to see that the grain is threshed dry, and is properly cleaned. Dockage rules for dirty wheat are very explicit.

The only time to get rye out of wheat thoroughly is while the grain is standing. More than one per cent of rye prevents any wheat grading number two. One-tenth of one per cent makes it unfit for seed. Cockle is still worse and must be removed, if at all, before harvest.

clothing and food, yet, it does not supply many of the little comforts, necessities and pleasures of life. For instance, fresh vegetables for the most part must be bought from a separate fund. Reading material must be so purchased, and there are numerous other items which go to add to the comfort and pleasures of the men which must be purchased from such a fund.

"This fund is not asked for from a selfish motive. Without any chance of reimbursement Lieut Blacklidge and myself have borne all expense incident to the organization of this company. However, we want the men to have what other men in similar organizations cey Duncan represents the plaintiff, will have, hence the appeal for this fund. This is for the men only. No commissioned officer can derive any benefit whatever from it. The funds are handled by council, the reports are made to the proper -Mrs. Charles Wilson and son departments and the accounts are audited, so that all funds are at al times accounted for."

BIG CROWD FOR RICHLAND.

The committee in charge of the automobile delegation for the community festivals reported today that prospects were good for a large crowd to go to Richland tomorrow night. John A. Titsworth will deliver the address and music will be provided by the Odd Fellows band.

Hamstrung and Strangled

Not long ago a train of fourteen cars of potatoes, billed to the Chicago market, were discovered at a small town near that city, where they had been sidetracked and left to rot—at a time when potatoes were selling at \$4.00 a bushel.

For a number of years now we have been learning of the willful destruction every season of such commodities as potatoes, cabbage, melons, apples, and other fruits when there was an opportunity by so doing to force prices up in the interest of the speculators.

These food pirates have purchased acres and acres of fruit on the trees and then refused to allow them to be picked—kept them there to rot—in order to keep them from the open market.

In other ways the campaign of pillage and loot at the expense of the consumer has been going merrily on.

Of course, merely to designate the perpetrators of these outrages as robbers and pirates does not one particle of good except to afford somes light relief to our feelings. There seems to be nothing the country can do to prevent these outrages.

But there should be, and if we mistake not the temper of the American people, there soon will be.

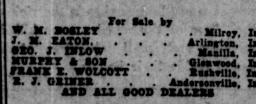

When the countries of Europe first adopted the policy of government control of food stuffs we in this country congratulated ourselves that we live in a free country. Lately, however, we are beginning to learn a few things—that instead of the freedom of which we boast, we are hamstrung and strangled by a horde of piratical food speculators who have no conscience, know no law, and are devoid of the first element of humanity.

With the proof clearly before us that the people are being systematically and outrageously plundered, our congress has the monumental effrontery to dawdle around and haggle over minor details while the poorer classes of our population are being driven to distraction.

Would Reform Record

The recent insertion in the Congressional Record by a member from California of 483 telegrams, all printed in large type, was the "straw which broke the camel's back," with Representative Joseph Walsh of Massachusetts. Mr. Walsh has made a careful compilation of the "extensions of remarks" which have been indulged in by members during the

DR. J. B. KINSINGER Osteopathic Physician

All Calls Premptly Answered
Day or Night
Phones — Office 1587; Res., 1281
OFFICE HOURS

present session, that is, matter printed in the Record which has not been heard on the floor of the House. He finds that 29 poems, 54 editorials, 70 articles and 26 speeches by outsiders, besides hundreds of letters and telegrams from constituents yearning to inform their congressman how to run the government have been thus embalmed in the public records. The abuse has grown to such proportions that Mr. Walsh has given formal notice to the house that he will hereafter object whenever request is made for such extensions. By so doing he will save the Government thousands of dollars, and confine the Congressional Record to what it purports to be, a report of the proceedings of Congress.

Source of Information

When Secretary of War Baker wrote to W. S. Gifford Director of the Council of National Defense, protesting that the council has no legal power to do some of the things attempted, Mr. Baker said that his "attention had been called through the newspapers" to what had been done. Isn't that a pretty state of affairs? The Council of National Defense and its committees were created by the administration as a war emergency body, but the Secretary of War gets his information concerning their acts, "through the newspapers." A little while ago the administration was trying to put the lid on newspaper publication of matters relating to war activities. If the press censorship had been established as desired, Secretary Baker would have had no means of learning promptly what action had been taken adverse to the interests of his Department. Really, this press censorship proposal is worse than most people supposed. It would déprive even the War Department of information it should have.

If booze is to be banished from this country it will be only a question of time when speculators will get a corner on water.

There's a loophole, Jimmy, whereby you may escape the draft. The morally unfit will not be accepted.

A white lie is harmless—until i turns black.

Yes, life is uncertain to the best of us— when the gun is loaded.

MUST FIX PRICE TO SOLVE PROBLEM

That and Solution of Car Shortage Necessary to Get Fair Coal Price Goodrich Says

TELLS WHAT INDIANA DID

(By United Press.)

Washington, July 17.—Government price fixing on coal from mine to consumer and solution of the car shortage problem are necessary to secure fair prices, Governor Goodrich of Indiana, coal expert, told the senate interstate commerce committee yesterday.

Goodrich said it would be imposscosts in different regions. He reible for the government to fix a universal coal price on account of the

SWAIN, Guardian.

Estimated That Half Billion Dollars in Free Advertising Was Given to Government

TO FLOAT THE LIBERTY LOAN

In Spite of Contributions The Cost to The Government Will Be Over Two Million

(By United Press.)

Washington July 17 .- More than \$500,000,000 worth of free advertising was given the United State government in its campaign to float the Liberty Loan according to estimates made by treasury officials. This does not include the hundreds of millions of dollars worth of space given in small country newspapers which never reached the attention of the government.

Whole newspaper pages, moving pictures, millions of posters, sign boards, hand dodgers, paper bombs, and hundreds of other means of bringing the bonds to the public were donated to the government by patriotic citizens.

The use of the editorial and advertising pages of 273 technical papers was donated; trade journals threw open their columns. Boy Scouts spent weeks in folding and mailing 4,600,000 folders printed at the Government Printing Office.

Thirty-six different languages were represented in the hundreds of foreign language papers which came to the assistance of the government.

Almost 2,000,000 large posters were distributed in all parts of the country, free of charge. The number of posters distributed by local committees for local use would be more than double the above number.

More than 1,000,000 copies of Secretary McAdoo's Liberty Loan speeches and 2,500,000 circulars describing the loan were mailed from Washington, and distributed free. almost 500,000 Liberty Loan primers ere distributed free to the government.

Business firms corporations, chambers of commerce, schools, private individuals, and every bureau of the government responded to the plea of the government to advertise the bonds on their stationary, and the slogan "Buy a Liberty Loan Bond" was almost as common during the campaign as a postage stamp.

In spite of the hundreds of millions of dollars of free advertising it is estimated that the total bill of the government for floating the loan will run over two or three million dollars.

MYSTERY SURROUNDS

Officials Unable to Account for Killof Mr. and Mrs. Edwin Humphries and Son

BUSINESS ASSOCIATE HELD

(By United Press.)

Johnstown, Pa., July 17.—Deepest mystery surrounds the motive for the murder of Edwin Humphries, Sr., his wife and 13-year-old son, Edmund, near Carrolltown, this county, Sun-

George Tompkins, a business associate of Humphries, is a prisoner in the county jail, charged with the

The police are proceeding with their investigation on the theory that business differences caused the crime. Tompkins, however, asserts that there had never been any trou-

EXPLOSION KILLS TWO BOYS

Brazil, Ind., July 17.-Explosion of powder found in an abandoned mine near here, caused the death today of two boys-Fred Blendell, 13, of Indianapolis and George Blakenship, 12 of Carbon. Their clothing was set afire by the powder blast and they died several hours later in terrible agony.

Lawrenceburg-Apparently feelng the need for greater food production, a swarm of bees belonging to Louis Terrill produced thirty-two

Cox's Shoe Store

All Men's and Women's Pumps and Oxfords, regular prices \$4, \$5, \$6 and \$7, for the next 10 days go at \$2.95, \$3.95, \$4.95 and \$5.45.

This is a clean sweep of all the Low Shoes in our store, including not only lines in which the sizes are broken, but complete lines in all the newest lasts and Leathers. The most wanted models—the finest shoes in the store.

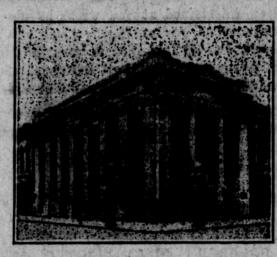

These prices \$2.95 to \$5.45—are less than the same shoes would cost to make today.

We are overstocked on these goods because the weather upset normal purchasing. Folks do not buy low shoes till they need them. There were only 10 clear days in April and May—and scarcely more in June. This put us behind on our regular sales and we are going to sacrifice these goods without reservation—as it is the policy of this store never to carry goods from one season to another.

This is your opportunity as most of the summer is still before We want to remind you again: This is Not an Ordinary Shoe Ordinary reductions mean little. These are standard values shoes of known merit, of fixed prices—and this sale represents a striking and genuine economy. We stand back of every pair— They are the Best.

The same rate of Reduction goes for the LITTLE FOLKS. A few pair left of the old stock which is being offered at a ridiculously low price.

Sale Closes Saturday, July 21, 1917 Winship and Denning

Considerably Surprised

The other day a woman was considerably surprised, and many others would be if they but knew of the work we are doing—the success we are achieving in the cleaning of garments that have become spotted or soiled.

I Ninety per cent of the people haven't the remotest idea of what actually can be done by our process. Old, soiled garments, faded and dirty, can be made to look like new with our wonderful harmless method. New gowns, accidentally spotted by fruit juice or colored liquids can be so treated as to leave absolutely no trace of the spot and positively without the slightest injury to the fabric.

I You can safely trust your costliest garment or your most delicate fabrics to the careful attention of our skilled, experienced cleaners. Look around the house today and phone us to call and get what you consider your most difficult job. We will do it so promptly and so well that you will never worry over light things again.

NO TIME IS SET TO RECEIVE BIDS

Commissioners Adjourn For Month, But Plans For Heating Plant Will Soon be on File

County Officials Believe Improvement Will be a Good Investment in Long Run

No date has been set for the receiving of bids for the new heating plant to be placed in the basement of the court house. The commissioneas have adjourned for this month but the plans and specifications are expected to be placed on file within a short time. Then a date for the bids will be set and it is hoped to rush the work to completion. - McGuire and Shook, architects of Indianapolis will draw the plans.

The estimate cost of the new plant is \$18,000. This sum was appropriated from the county fund and will not necessitate the selling of any bonds. In deciding to make the appropriation and to place the plant under the building the commissioners and county council looked at the problem from all angles.

The present heating plant would not possibly last longer than two years and there were some experts who declared it would not work through the coming winter. To put the present plant in proper working order would require an expenditure of \$1,000 to \$1,200 and would give only temporary relief. Under the proposed plans the new heating plant will be placed under the assembly room towards the east end of the building. It has been estimated that only 18 inches of excavating will be necessary and then the boilers will be higher than at the present heating station.

A large room will be constructed for coal and if temporary plans are followed the flue will run up near the southeast corner of the building and will not damage any of the rooms in the building. Outside

EIGHT RUSHVILLE MEN WANT IN CAMP

Send Applications For Admission to School For Officers to be Held at Fort Harrison

2 FORMER LOCAL MEN APPLY

Eight Rushville men and two who formerly lived here have applied for admission to the second officers training camp which will oper at Fort Benjamin Harrison next month. The men who have been examined received printed instructions explaining that they would be notified by mail August 10 whether they had been accepted for training. Some of them were examined at Fort Harrison yesterday and others have been ordered to report to Seymour and Cambridge City.

Seven of the Rushville men who opplied are: Charles Sherman, Wil Nicholas, Donald Alexander, Brann. Vincent Whitsitt, Earl B. Marlatt and Ernest Marlatt. The two former Rushville men are Charles Stiffler of Anderson and Lawrence Root of Pique, Ohio. Applicants from here who were at Fort Harrison yesterday said that Mr. Root got his application ten minutes after the time limit for receiving applications, but he was told to let it go through and see what action was taken.

Vincent Whitsitt, who is the son Rushville man in the present camp, and western Ohio for his territory, the arrangementa.

CONFER OVER NEW **GRAIN STANDARDS**

Dealers of County Exchange Ideas Regarding Regulations Established by Government.

IN THE EXPERIMENTAL STAGE

Same Uncertainty Regarding New Law Exists Throughout State as in This County.

meeting last night to discuss the large fund. While the government new United States grain standards furnishes clothing and food it does which became effective July I and not furnish the little things that which require federal inspection of aid in making the soldier comfortevery car of wheat which is shipped able and home-like. It is believed out. The grain standards law is in that an organization will be formed the experimental stage and neither here to raise this fund and a libgrain dealers nor farmers know exactly what effect it will have.

The opinion was expressed among the county dealers that farmers ing statement: wherever possible should erect their own graineries and hold their wheat ought to respond generously for a until it was determined just what the company fund. Every town in the effect of the new regulations would state which is the home station of have. No elevators here will accept a company has or is raising a grain for storage and if farmers do large company fund for its men. not want to run the risk of the dock- This Company goes primarily as a age they are sure to suffer when they sell their wheat from the field, they are offering all they have and the are advised to store their wheat at people of the county ought to do all home until the inspection question is they can to make things as pleasthoroughly settled.

Meeting of grain dealers have been new law. A meeting of state grain day and representatives of the county dealers attended. They found the The company fund is to get for the same uncertainty about the new law as exists in this county.

The Rush county men brought home a sample of the first car load stage. of this year's wheat reaching Indianapolis. It graded sixty and a half pounds to the bushel and contained twelve and a half per cent moisture According to the government inspection, if was docked three and a half per cent, which equaled 2,800 pounds or \$90 on the car load.

The grain men cite this as an example of what the grain dealers and the farmers have to face in the new grain regulations. Every car of wheat which leaves a shipping point in Rush county, or any place in the United States for that matter, will have to be inspected according to the government regulations.

The conference here was arranged so that the grain dealers might exchange ideas and reach definite conclusions regarding the regulations. No one knows exactly what effect they will have. The idea of a grain standard is not new. It has been agitated for a decade, but the government never enacted a law on the subject until last year. Conditions are bound to be unsettled until the question passes the experimental

WILL ARRANGE FOR FLAG PRESENTATION

Meeting Will be Held in Court House Assembly Room Wednesday Afternoon at 4 O'clock.

COMPANY B WILL BE HONORED

Arrangements will be completed at a meeting in the court house assembly room Wednesday afternoon at four o'clock, for the presentation of the flag to Company B, which was purchased with a fund raised through popular subscriptions. Because the event will be of general community interest, it is requested that all who are interested attend the meeting when the time and place for the pres entation will be decided upon and a committee appointed to arrange a program and other details.

Arthur B. Irvin, who originated the idea of presenting a flag to Company B and was responsible for raising the fund, left last Saturday for a trip Robert E. Mansfield to take charge of the fund and make arrangements meeting for Wednesday afternoon because he thought everyone inter-

Officials Refute Story That The Ascsembly Program Will be Abandoned This Year

RUMOR WIDELY CIRCULATED

Same Old Tale About Price of Season Tickets Being Increased is Also Denied

Officials of the Rush County Chautauqua association today took oceasion to deny rumors they have heard that the chautauqua had cancelled its contracts and would not give a program this year. Such a story has been traveling over the county at a merry clip, one official hearing it yesterday from a farmer living in southern Rush county.

"The chautauqua has not cancell ed its contracts and never had any idea of doing such a thing," this same official said. "Such a thing has never even been hinted until recently when someone asked if it were not the case that the chautauqua would be abandoned this year. The subject was never discussed by the directors and never brought up at any meetings. It has been the intention of the officers to give the chautauqua as usual all the time."

The season tickets were distributed to the guarantors yesterday. Attention has also been called to the fact that the usual pre-chautauqua story s going the rounds that the price of season tickets has been raised. It would not be a regular chautauqua if the tale were not peddled by some persons that season tickets would be declared. "We are a long way yet higher in price than in former years. The story is just as untrue as it ever was. The tickets are \$1.50 just as they always have been when purchased of guarantors. There are enough guarantors to supply all who want tickets. Tickets may be purchased of any of the following, who are guarantors:

TWO MEN SHORT OF NUMBER SHOWS PROCEEDS

Medical Unit Formed Here is Almost up to Requirements

The medical unit being formed here, with Dr. Lowell M. Green, as a lieutenant, needs only two men of being up to the required number. A total of twenty-three men have enlisted and as the number ONE NIGHT FOR CO. B FUND was reduced to twenty-five, only two more can be taken in. Major Another Will be to Buy Yarn For Carey will be here Wednesday evening to conduct the first drill and complete the examination.

New Chancellor Must Show he Has the managers have decided to Enough Support in Reichstag to Pass Credit Bill.

WANTED HOLLWEG TO STAY

Austria-Hungary Will Have to be Mollified-Grave Unrest Felt in Dual Monarchy.

(By United Press.)

London, July 17.—Germany has not yet fully passed her internal crisis. The new chancellor, Dr. Michaelis still has to show he can command enough support in the reichstag to pass the credit bill.

A Berliner Tagblatt editorial quot ed in dispatches today vigorously assailed the method of Michaelis' appointment. "Michaelis has been wished upon

the people from high Olympus," it from parliamentary control."

But, not alone does the government face a smoothing out of the parliamentary situation, but Austro-Hungary must be mollified. Vienna wanted Hollweg to stay. Emperor Carl's ministers did not hesitate frankly and firmly to announce this to Berlin. Austro-Hungary is experiencing grave unrest, due to the

success of the Russian drive and the BOY SCOUTS TO GO establishing of a conviction that the central powers cannot win.

PREMIER'S PLAN OUTLINED

(By United Press.)

July 17.-Chancellor Berlin. George Michaelis' program is to be: "A strong policy without; unity within."

Highest sources gave this outline

Berlin is keenly curious and impolicies. It was announced today premier would make his maiden speech was not likely before next

Until the new chancellor formally states his policies the Berlin press will continue cautious and will not give him support or voice opposition, according to indications today. All newspapers conceed

Receipts From Theatrical Perform ances at Catholic Carnival for Patriotic Purposes

Knitting Socks and Third K. of C. War Camp Fund

Preparations for the fourteenth annual carnival to be given by the men of St. Mary's Catholic church, INTERNAL CRISIS July 25, 26, 27 and 28 are rapidly nearing completion, according to the executive committee In keepling with the spirit of the times donate the entire proceeds of the theatrical performances given nightly in the church hall to patriotic purposes.

> On the opening night, Wednesday, the local Red Cross will be the beneficiary. The amount realized will be used for the purpose of purchasing yarn for the knitting of socks for soldiers. The Red Cross treasury cannot be drawn upon for such purposes and the benefit should be a means of aiding this important

> On Thursday night, the second night of the carnival, the mess fund of Company B, will receive its first donation. While the government furnishes rations to its soldiers. only the bare essentials are given and the mess fund is intended to supply some of the comforts of home to the local company,

On Friday night the beneficiary will be the Knights of Columbus, who will give the proceeds to the war camp fund. This organization is raising a million dollar fund to equip recreation centers for the training camps somewhat after the manner of the Y. M. C. A. The war department has given its full approval to this worthy project.

IN CAMP NEAR LAUREI

Troops From Christian and Methodist Churches Will Have Regular Program For Each Day.

PART OF THEM HIKE TO CAMP

About ten Boy Scouts from the troops at the Main Street Christian and St. Paul's M. E. church started this afternoon to hike to Laurel, where a camp will be established by the two troops. The remainder of the Scouts will join the crowd hiking in the morning, traveling in automobiles. A truck will carry their campequipment. The boys who left on foot expected to camp over night near Andersonville.

It is expected that a site a quarter of a mile northeast of Laurel will be selected for the camp. A committee from the two troops has already looked over the ground and picked two desirable places. The one which will be used will be selected by the committee early in the morning.

A set of camp rules has been adopted. The Scouts will arise each morning at six o'clock and at 6:30 there will be "setting up" exercises just as an army camp. At seven breakfast will be served and at eight they will swim. A regular Scout program will be followed the remainder of the day. The equipment includes a first aid tent, a reading tent, a mess tent, cooking tents and sleeping tents. About thirty Scoute will enjoy the outing.

Indianapolis After traveling al the way to Canada in order to join the Canadian army to get to go t France, Donald Driscol of this gif was rejected, being under the requir

It will take just a few moments to step in and ask us what our experience has been in the way, of satisfied customers. We want you to give D. D. B. a trial. 25c, 50c and \$1.00. Your money back unless the first bottle relieves you. D. D. D. Beap keeps your skin healthy, sisk us about it.

TAYLOR'S HAND LACERATED

Caught Between Pulley and Rope While Putting Up Hay.

Chase Taylor of Jersey City sustained a badly lacerated right hand yesterday at the Derby Green farm, where he was helping put hay in the mow. Taylor was operating a hay hork and the horse used to life the lower. Indianapolis wheat was firm; hay into the mow was started too soon, resulting in his hand being caught between the rope and the pulley. Taylor was pulled a distance of 18 feet into the air and when let down his hand and fingers were badly burned and cut by the rope.

NO TIME SET TO RECEIVE BIDS ON HEATING PLANT Continued from Page 1.

entrance to the heating plant will probably be made from the south. In addition to the new plant about 2,000 square feet of additional radiation will be installed, assuring that the entire building will be heated, something 45 that is not done under the present

The new heating plant will be known as a low pressure plant while the resent one is of the high pressure type. One expert told the council that the present plant is not piped correctly. The reducing valves are it the heating plant and his theory vas that these valves should be at he court house. His idea was that y reducing the steam at the plant t was lost by the time it got to the milding, whereas if pressure were reduced after reaching the building there was bound to be live steam all the time.

It developed during the investigaion that the original plans for the court house called for the placing of he plant under the building but hese were changed because enginers did not think it was practical t that time.

The new system it is believed: will result in a saving of, fuel and labor. n case the new plant is not completid by cold weather the old plant can be used and the cut-over made any ime. While the sum of \$18,000 aprears to be a large expenditure the ommissioners and council believe it will be a good investment in the long

Attention Farmers

Grading wheat under U.S. Standards, a law which all grain dealers will have to abide by.

The official grain standards of the United States for wheat were fixed, established, promulgated and published on March 31 by the Secretary of Agriculture, under the authority given in the Grain Standard Act. This act of Congress establishes wheat grades for the entire United States, from the farm to the export terminal. Effective on Indiana wheat July 1, 1917.

Number Two Red Winter wheat shall be cool and sweet, contain not more than thirteen per cent of moisture, shall test not less than fifty-nine pounds per bushel, contain not more than four per cent of damaged kernels, and not more than one per cent of foreign matter.

Number Three Red Winter wheat shall be cool and sweet, contain not more than fourteen per cent moisture, shall have a test weight of at least fifty-seven pounds, shall contain not more than seven per cent of damaged kernels, and not more than two per cent of foreign matter.

Number Four Red Winter wheat shall be cool and sweet, contain not more than fourteen per cent moisture, shall have a test weight of at least fifty-five pounds. Shall contain not more than ten per cent damaged kernels, not more than one per cent heat damage, and not more than four per cent foreign matter.

Number Five Red Winter wheat may be musty or sour, contain not more than fifteen per cent of moisture, test not less than 53 pounds per bushel. May contain not more than fifteen per cent damaged kernels, not more than three per cent heat damage and not more than six per cent foreign material.

Dockage includes sand, dirt, weed seeds, weed stems, chaff, straw, grain other than wheat, and any other foreign material which can be removed readily from the wheat by the use of appropriate sieves cleaning devices, or other practical means suited to separate the foreign material present; also undeveloped, shriveled and small pieces of wheat kernels necessarily removed in properly separating the foreign material. The quantity of dockage shall be calculated in terms of percentage based on the total weight of the grain including the dockage. The percentage of dockage so calculated shall be stated in terms of whole per centum and half per centum. A fraction of a per centum when equal to, or greater than a half, shall be treated as a half, and when less than a half shall be disregarded. The percentage of dockage so determined and stated shall be added to the grade designation.

For a full copy of the Official Standards write to the Secretary of Agriculture, Washington, D. C., or to your Congressman. It will be seen that the requirements of grading are a trifle more strict. Dirty wheat, or wheat that is even slightly damp, cannot grade either number two or three in any market. It rests primarily with the farmer to see that the grain is threshed dry, and is properly cleaned. Dockage rules for dirty wheat are very

The only time to get rye out of wheat thoroughly is while the grain is standing. More than one per cent of rye prevents any wheat grading number two. One-tenth of one per cent makes if unit for seed. Cockle is still worse and must be removed, if at all, before harvest.

Hamstrung and Strangled

Not long ago a train of fourteen cars of potatoes, billed to the Chicago market, were discovered at a small town near that city, where they had been sidetracked and left to rot-at a time when potatoes were selling at \$4.00 a bushel.

For a number of years now we have been learning of the willful destruction every season of such commodities as potatoes, cabbage, melons, apples, and other fruits when there was an opportunity by so doing to force prices up in the interest of the speculators.

These food pirates have purchased acres and acres of fruit on the trees and then refused to allow them to be picked-kept them there to rot-in order to keep them from the open

In other ways the campaign of pillage and loot at the expense of the consumer has been going merrily on. Of course, merely to designate the perpetrators of these outrages a robbers and pirates does not one particle of good except to afford somes light relief to our feelings. There seems to be nothing the country can do to prevent these outrages.

But there should be, and if we mistake not the temper of the American people, there soon will be.

When the countries of Europe first adopted the policy of government control of food stuffs we in this coun try congratulated ourselves that we live in a free country. Lately, however, we are beginning to learn a few things—that instead of the freedom of which we boast, we are hamstrung and strangled by a horde of piratical food speculators who have no conscience, know no law, and are devoid of the first element of humanity.

With the proof clearly before us that the people are being systematically and outrageously plundered, our congress has the monumental effrontery to dawdle around and haggle over minor details while the poorer classes of our population are being driven to distraction.

Would Reform Record

The recent insertion in the Congressional Record by a member from California of 483 telegrams, all printed in large type, was the "straw which broke the camel's back," with Representative Joseph Walsh of Massachusetts. Mr. Walsh has made a careful compilation of the "extensions of remarks" which have been indulged in by members during the

RINER , Anderson Anderson AND ALL GOOD DEALERS

DR. J. B. KINSINGER Osteopathic Physician

All Calls Promptly Answered

present session, that is, matter printed in the Record which has not been heard on the floor of the House. He finds that 29 poems, 54 editorials, 70 articles and 26 speeches by outsiders, besides hundreds of letters and telegrams from constituents yearning to inform their congressman how to run the government have been thus embalmed in the public records. The abuse has grown to such proportions that Mr. Walsh has given formal notice to the house that he will hereafter object whenever request is made for such ex-

of the proceedings of Congress. Source of Information

tensions. By so doing he will save the

Government thousands of dollars,

and confine the Congressional Record

to what it purports to be, a report

When Secretary of War Baker wrote to W. S. Gifford Director of the Council of National Defense, protesting that the council has no legal power to do some of the things attempted, Mr. Baker said that his "attention had been called through the newspapers" to what had been done. Isn't that a pretty state of affairs? The Council of National Defense and its committees were created by the administration as a war emergency body, but the Secretary of War gets his information concernng their acts, "through the newspapers." A little while ago the administration was trying to put the lid on newspaper publication of matters relating to war activities. If the press censorship had been established as desired, Secretary Baker would have had no means of learning promptly what action had been taken adverse to the interests of his Department. Really, this press censorship proposal is worse than most people supposed. It would déprive even the War Department of information it should have.

If booze is to be banished from this country it will be only a question of time when speculators will get a corner on water.

There's a loophole, Jimmy, whereby you may escape the draft. The morally unfit will not be accepted.

A white lie is harmless-until it turns black.

Yes, life is uncertain to the best of us-when the gun is loaded.

MUST FIX PRICE

That and Solution of Car Shortage Necessary to Get Fair Coal Price Goodrich Says

TELLS WHAT INDIANA DID

(By United Press.)

Washington, July 17.—Government price fixing on coal from mine to conage problem are necessary to secure fair prices, Governor Goodrich of Indiana, coal expert, told the senate interstate commerce committee yes-

Goodrich said it would be imposscosts in different regions. He reible for the government to fix a universal coal price on account of the viewed the steps Indiana has taken to speed up coal shipments and to prevent dealers from holding up prices by storing coal in reconsigned freight cars. The coal price agreement made in Washington June 28 between the defense council's coal committee and mine operators would "blow up" Indiana's plans Goodrich

TODAY'S HOOSIER ODDITY

Aurora, Ind., July 17-While work ing a garden near their home, Mrs. Carl J. Gullion and Mrs. Rebecca J Stewart, both of this city, found a turtle with the date July 4 1811 carved on its shell. Mrs. Gullion carved her initials and the present date near the other marks and turned the turtle loose.

Boschee German Syrup

Why use ordinary cough remedies, when Boschee's German Syrup has been used so successfully for fiftyone years in all parts of the United States for coughs, bronchitis colds settled in the throat, especially lung troubles. It gives the patient a good night's rest, free from coughing with easy expectoration in the morning, gives nature a chance to soothe the inflamed parts, throw off the disease, helping the patient to regain his health. 25 and 75 cent bottles. Sold by Pitman & Wilson,—(Adv.)

MUCH SPACE WAS DONATED BY PRESS

Estimated That Half Billion Dollars in Free Advertising Was Given to Government

TO FLOAT THE LIBERTY LOAN

In Spite of Contributions The Cost to The Government Will Be Over Two Million

(By United Press,)

Washington July 17.-More than \$500,000,000 worth of free advertising was given the United State government in its campaign to float the Liberty Loan according to estimates made by treasury officials. This does not include the hundreds of millions of dollars worth of space given in small country newspapers which never reached the attention of the government.

Whole newspaper pages, moving pictures, millions of posters, sign boards, hand dodgers, paper bombs, and hundreds of other means of bringing the bonds to the public were donated to the government by patriotic citizens.

The use of the editorial and adertising pages of 273 technical papers was donated; trade journals open their columns. Boy Scouts spent weeks in folding and mailing 4,000,000 folders printed at the Government Printing Office.

Thirty-six different languages were represented in the hundreds of foreign language papers which came to the assistance of the government.

Almost 2,000,000 large posters were distributed in all parts of the country, free of charge. The number of posters distributed by local committees for local use would be more than double the above number.

More than 1,000,000 copies of Secretary McAdoo's Liberty Loan speeches and 2,500,000 circulars describing the loan were mailed from Washington, and distributed free. almost 500,000 Liberty Loan primers were distributed free to the govern-

Business firms corporations, chambers of commerce, schools, private individuals, and every bureau of the government responded to the plea of the government to advertise the bonds on their stationary, and the slogan "Buy a Liberty Loan Bond" was almost as common during the campaign as a postage stamp.

. In spite of the hundreds of millions of dollars of free advertising it is estimated that the total bill of the government for floating the loan will run over two or three million dollars.

MOTIVE FOR MURDER

Officials Unable to Account for Killof Mr. and Mrs. Edwin Humphries and Son

BUSINESS ASSOCIATE HELD

(By United Press.)

Johnstown, Pa., July 17.-Deepest nystery surrounds the motive for the murder of Edwin Humphries, Sr., his wife and 13-year-old son, Edmund, near Carrolltown, this county, Sun-

George Tompkins, a business associate of Humphries, is a prisoner in the county jail, charged with the crime.

The police are proceeding with their investigation on the theory that business differences caused the crime. Tompkins, however, asserts that there had never been any trou-

EXPLOSION KILLS TWO BOYS

Brazil, Ind., July 17. Explosion of powder found in an abandoned mine near here, caused the death today of two boys-Fred Blendell, 13, of Indianapolis and George Blakenship, 12 of Carbon. Their clothing was set afire by the powder blast and they died several hours later in terrible agony.

Cox's Shoe Store

All Men's and Women's Pumps and Oxfords, regular prices \$4, \$5, \$6 and \$7, for the next 10 days go at \$2.95, \$3.95, \$4.95 and \$5.45.

This is a clean sweep of all the Low Shoes in our store, including not only lines in which the sizes are broken, but complete lines in all the newest lasts and Leathers. The most wanted models—the finest shoes in the store.

These prices-\$2.95 to \$5.45-are less than the same shoes would cost to make today.

We are overstocked on these goods because the weather upset normal purchasing. Folks do not buy low shoes till they need them. There were only 10 clear days in April and May—and scarcely more in June. This put us behind on our regular sales and we are going to sacrifice these goods without reservation—as it is the policy of this store never to carry goods from one season to another.

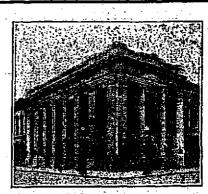

We want to remind you again: This is Not an Ordinary Shoe Sale. Ordinary reductions mean little. These are standard valuesshoes of known merit, of fixed prices—and this sale represents a striking and genuine economy. We stand back of every pair— They are the Best.

This is your opportunity as most of the summer is still before

The same rate of Reduction goes for the LITTLE FOLKS. A few pair left of the old stock which is being offered at a ridiculously low price.

Säle Closes Saturday, July 21, 1917
